

Nationally Consistent Collection of Data for  
School Students with Disability

*From the Principal:*

All schools in Australia, including Independent and Catholic schools, will participate in the Nationally Consistent Collection of Data on School Students with Disability every year.

The Data Collection is an annual count of the number of students with disability receiving educational adjustments to support their participation in education on the same basis as students without disability.

All education agencies are now required under the Australian Education Regulation 2013, to provide information on a students' level of education, disability and level of adjustment to the Australian Government Department of Education. Data will continue to be de-identified prior to its transfer and no student's identity will be provided to the Australian Government Department of Education.

The collection of this information from states and territories will inform future policy and program planning in relation to students with disability.

If you have any questions, please do not hesitate to contact (INSERT PRINCIPAL'S NAME) on (INSERT PHONE NUMBER) or the Western Australian Department of Education NCCD Helpline on 0477 741 598.

## Nationally Consistent Collection of Data for School Students with Disability

### *From the Principal:*

Our school is part of a national project about students with disability and/or learning difficulties.

We have been asked to provide data about the number and learning needs of children at our school. The name of the school and the name of the students will not be reported. Information about the different types of needs and the programs and resources the school uses to overcome barriers and support children with special educational needs will be collected.

We believe it is important to contribute to this because it will help Governments and the Department develop better policies that acknowledge the level of resources needed in schools to meet the needs of all students in Western Australia.
